Customer: CMTG

Ref No. CMTG-GOAT/SHEEP TRIPLE

Scale:
1:30

Drawn By: P Bailey

Date 2/12/2010

PAGE 1 OF 14

I, Lindsay Love, BE, MIEAust, CPEng, of Love and Associates P/l, 3 Codrington St, Cranbourne have reviewed the structure and certify that the wooden crate design identified as:-

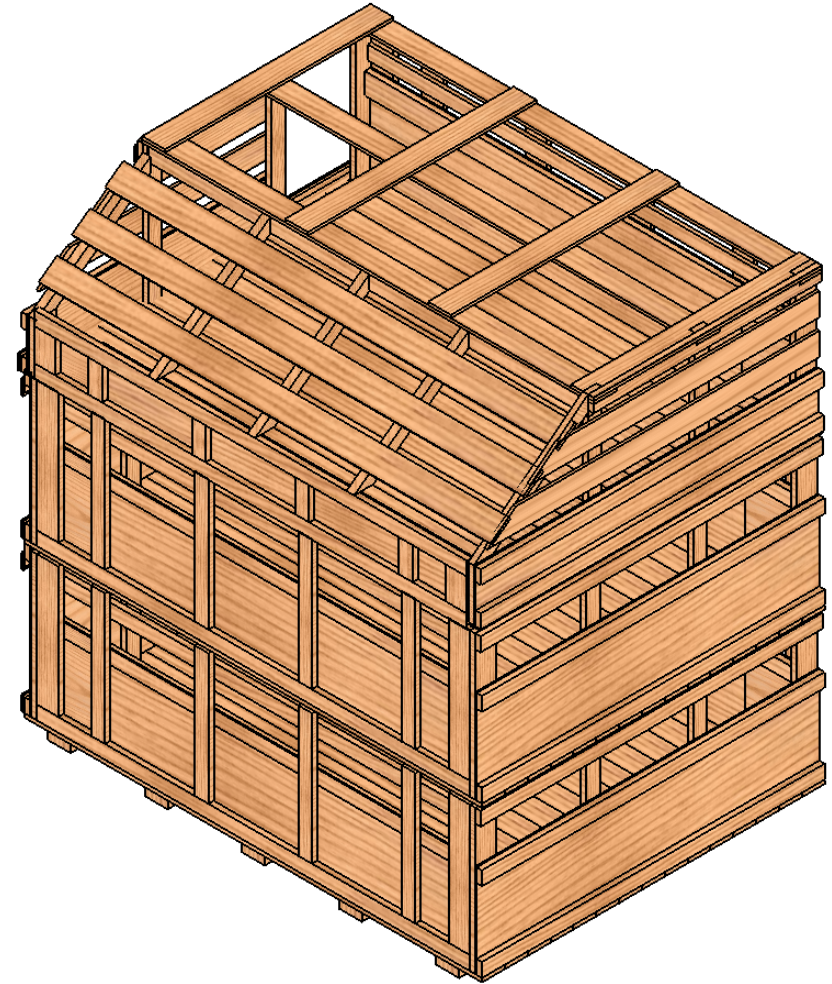

(Triple) - Modular Concept (CMTG code: CMTG GOAT/SHEEP TRIPLE) and depicted to the right and within this 14 page document
As manufactured by CMTG meets the guidelines as set out in "Best Practice Design Handbook for Livestock Crates Exported by Air".

This Crate should only be: -
Lifted by forklifts with full width tines used at the nominated lifting points;
Loaded to 3000kg per pallet;
used with a securing mesh over the crate top

I also declare that I am a tertiary qualified Structural Engineer familiar with wooden structures and livestock and that I am competent to give such a certification.

Lindsay Love
